

MIRACLE ADDITIVE

ET990-GA01

Product	Specially designed additive for the automotive acrylic clearcoats, including MS, HS and UHS/VHS types. The product guarantees a very safe and easy application of 2K clearcoats. Provides optimal flow without sagging, reduces the likelihood of solvent popping and runs even after the application in thick layers. Eliminates potential gloss reduction or dieback after the curing and cooling of the painted surface.
Application Conditions	18-22° C
Mixing	Ready to use
Spraying Equipment	As per clearcoat recommendations
Number of Layers	As per clearcoat recommendations
Dosage	Percentage to total clearcoat volume: MS - 5% HS - 6% UHS/VHS - 7-8%
Shelf life	24 months
